Canon imagePRESS 1110-LITE Professional Production Printer iPR1110-LITE

The imPRESSively cost effective production engine

High productivity and efficiency go hand in hand with the imagePRESS 1110 Lite. Designed for print for pay and corporate reprographic environments with limited space and budget, this production engine delivers outstanding reliability, superb prints and handles a wide variety of media.

Maximum Productivity

Full production speeds of up to 110 ppm are achieved across all media types and weights from 52g/m² up to 300g/m², whilst a maximum paper size of 19.2" x 13" is supported.

A space saving paper deck with 6,000 sheets capacity is available to increase the variety and volume of paper which can be pre-loaded for production.

Class leading quality

1,200 dpi print resolution and an innovative twin sleeve print process combine to deliver outstandingly sharp text and images.

Precision printing

Accurate registration, which is actively adjusted during print runs, ensures consistency at high speeds for non-stop operation.

Highly innovative

New micro toner technology developed for this imagePRESS range delivers consistently high quality output across a wide range of media.

Exceptional finishing

A range of finishing facilities adds the perfect final touch to your document production. You can opt for staple finishing, multi-folding, saddle-stitching and punching. Intelligent Registration technology ensures impressive results print after print.

**Productive results for
cost conscious print
environments.**
