- *The user-friendly interface provides experienced and novice users with a quick and easy way to build copy jobs*
- *Most commonly used features are no more than two menu selections away in most cases*
- *All queued jobs can be viewed from the copier, giving walk up users an estimated wait time*
- *Output image quality is to a very high standard on most documents*
- *No slow down in mixed original size batch scanning is a plus in vertical sectors such as legal, real estate and financial*
- *Booklet mode and saddle-stitch creation as a one touch button on the finishing tab allows users to get the job right the first time*
- *The control panel moves up and down easily through a broad range for easy visibility to disabled users*
- *The interrupt function allows walk up copy users to stop a print job in mid operation and carry out a copy job including finishing attributes*
